Position: Graduate Research Assistant (M.S.)
Turfgrass and Soil Science

Location: Department of Plant Science
University of Connecticut
Storrs, CT 06269
www.turf.uconn.edu

Position Description: Two graduate research assistantships are available to conduct research on diseases and agronomic disorders of cool-season turfgrass grown on golf courses in the Northeastern United States. Specific projects include biology, epidemiology and management of anthracnose basal rot and algae on golf course putting greens. Qualified candidates will also gain valuable field and laboratory turfgrass disease diagnostic experience. Candidate will be expected to assist in research projects outside of their degree research.

Qualifications: Bachelor of Science in Turfgrass Science or related discipline. Demonstrated excellence in course work, good written and oral communication skills, and ability to work in a team environment required. Experience in turfgrass and golf course management expected.

Stipend and Benefits: Benefits include annual stipend of approximately $19,180, paid tuition, medical and dental and potential for additional summer funding.

How to Apply: Send letter of career objectives, resume, and copy of transcripts to:

John E. Kaminski, Ph.D.
Assistant Professor of Turfgrass Pathology
University of Connecticut
Department of Plant Science
1376 Storrs Road, Unit-4067
Storrs, CT 06269
